Dear Mr. McGill:

During its meeting 17 March 2005, the Commission reviewed and approved the plans for the proposed new guard house by the loading docks of the Federal Bureau of Investigation Washington Field Office on 4th and F streets on Judiciary Square. The modification of the planter at the side of the vehicular entrance on G Street to accommodate the new guard house was deemed appropriate. The design details of the previously-approved existing guard house on 3rd Street are to be replicated on the new guard house.

Sincerely,

A handwritten signature in black ink, appearing to read 'F. Lindstrom', with a long horizontal flourish extending to the right.
