CANOPY TREES

UNDERSTORY TREES

FALL COLOR THEMES

A DISTINCTIVE PLACE

Create an environment that is distinctive from others at ANC.

SHELTERING CANOPY

Create a sheltering, uniting 'roof' over entire space with canopy trees. Allow spacious, open views that feel expansive, not cluttered.

ATMOSPHERIC SHRUBS

Select understory trees and shrubs with open branching and small leaves that allow maximum transparency at eye-level.

LUSH, SPARKLING GROUND VEGETATION

Develop mixes of forbs to densely cover the ground below.

COLUMBARIA - HERBACEOUS TYPOLOGIES

COLUMBARIA COURT LOOKING NORTH

THE ARLINGTON CHARACTER LOOKING WEST

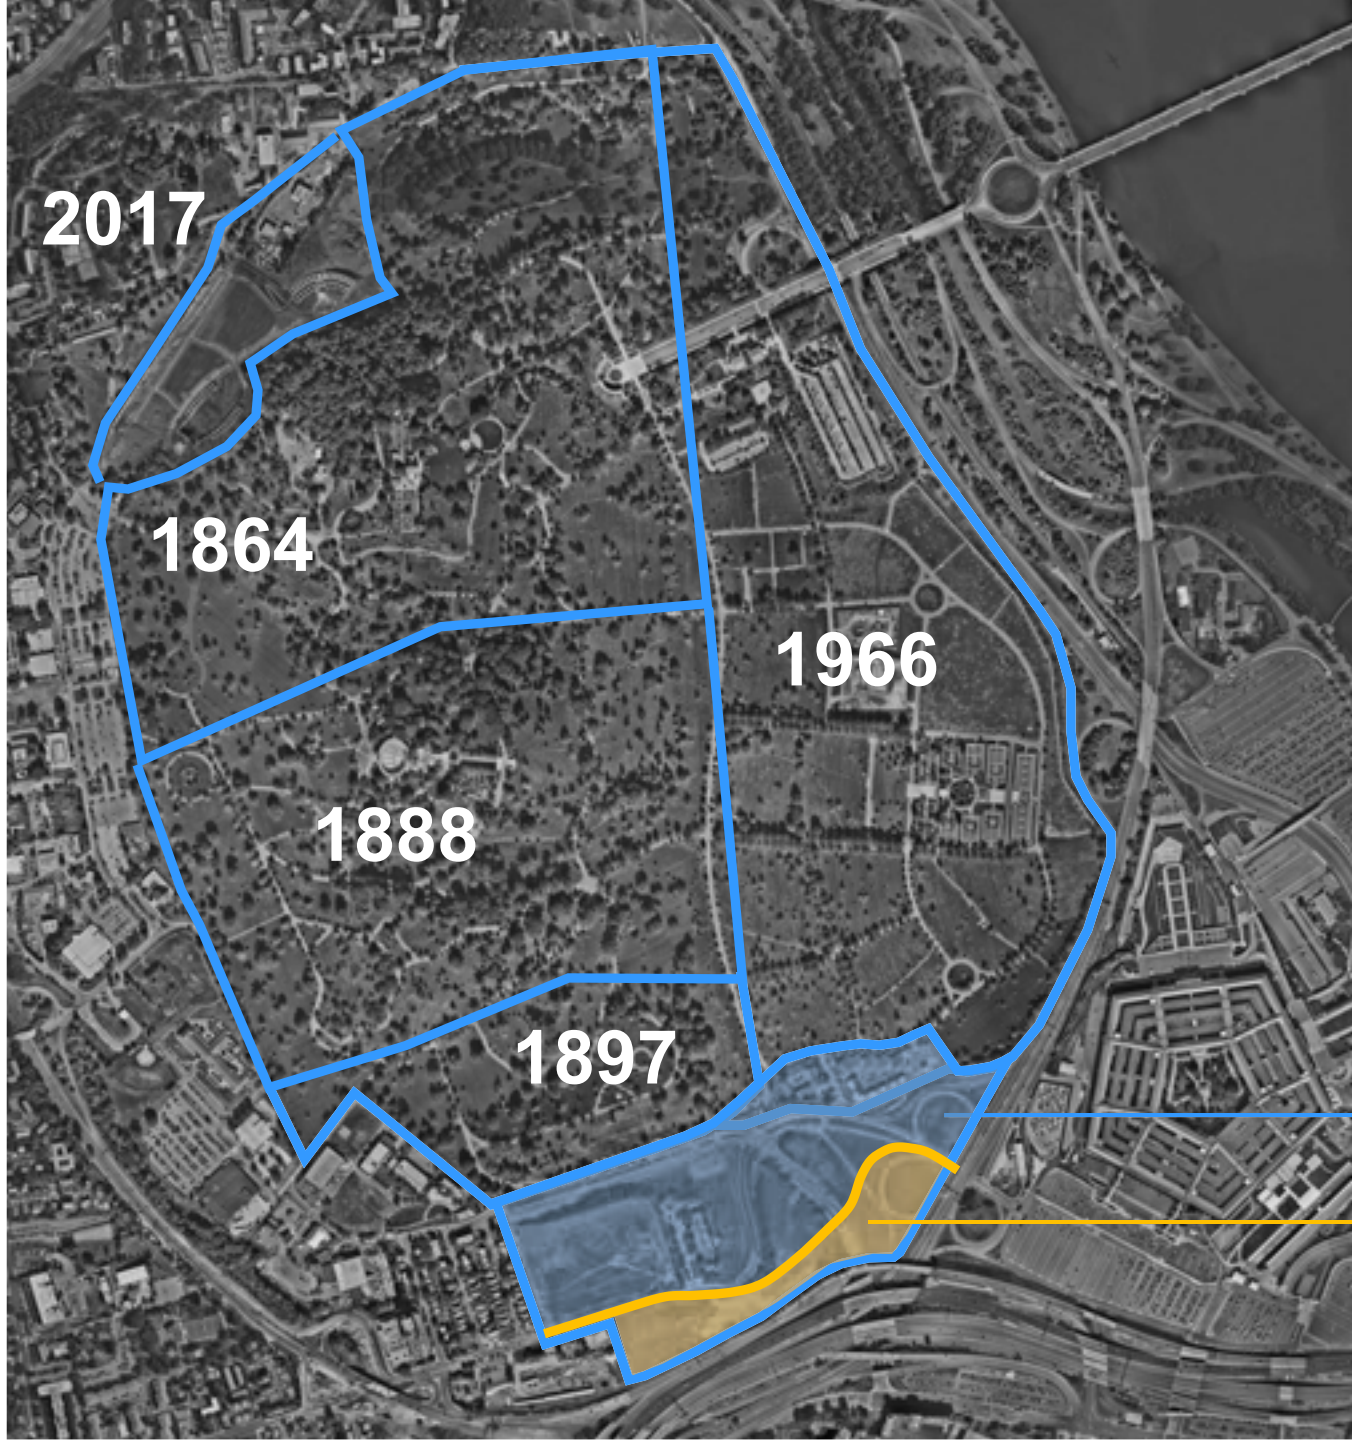

LOOKING SOUTHEAST TO THE AIR FORCE MEMORIAL

An aerial photograph of a large park area, likely Central Park in New York City, with a river (the Harlem River) visible on the left. The park is filled with green trees and grass. In the background, a dense city skyline is visible. The text 'Q\A' is overlaid in the center of the image.

Q\A

An aerial photograph of a city, featuring a large, lush green park area in the center. The park is filled with trees and open spaces. To the left of the park, there are several large, modern buildings and a highway. The city extends into the background, with a dense urban area visible. The word "APPENDIX" is overlaid in white, sans-serif capital letters in the center of the image.
