*Wall height of Vietnam Veterans Memorial varies.

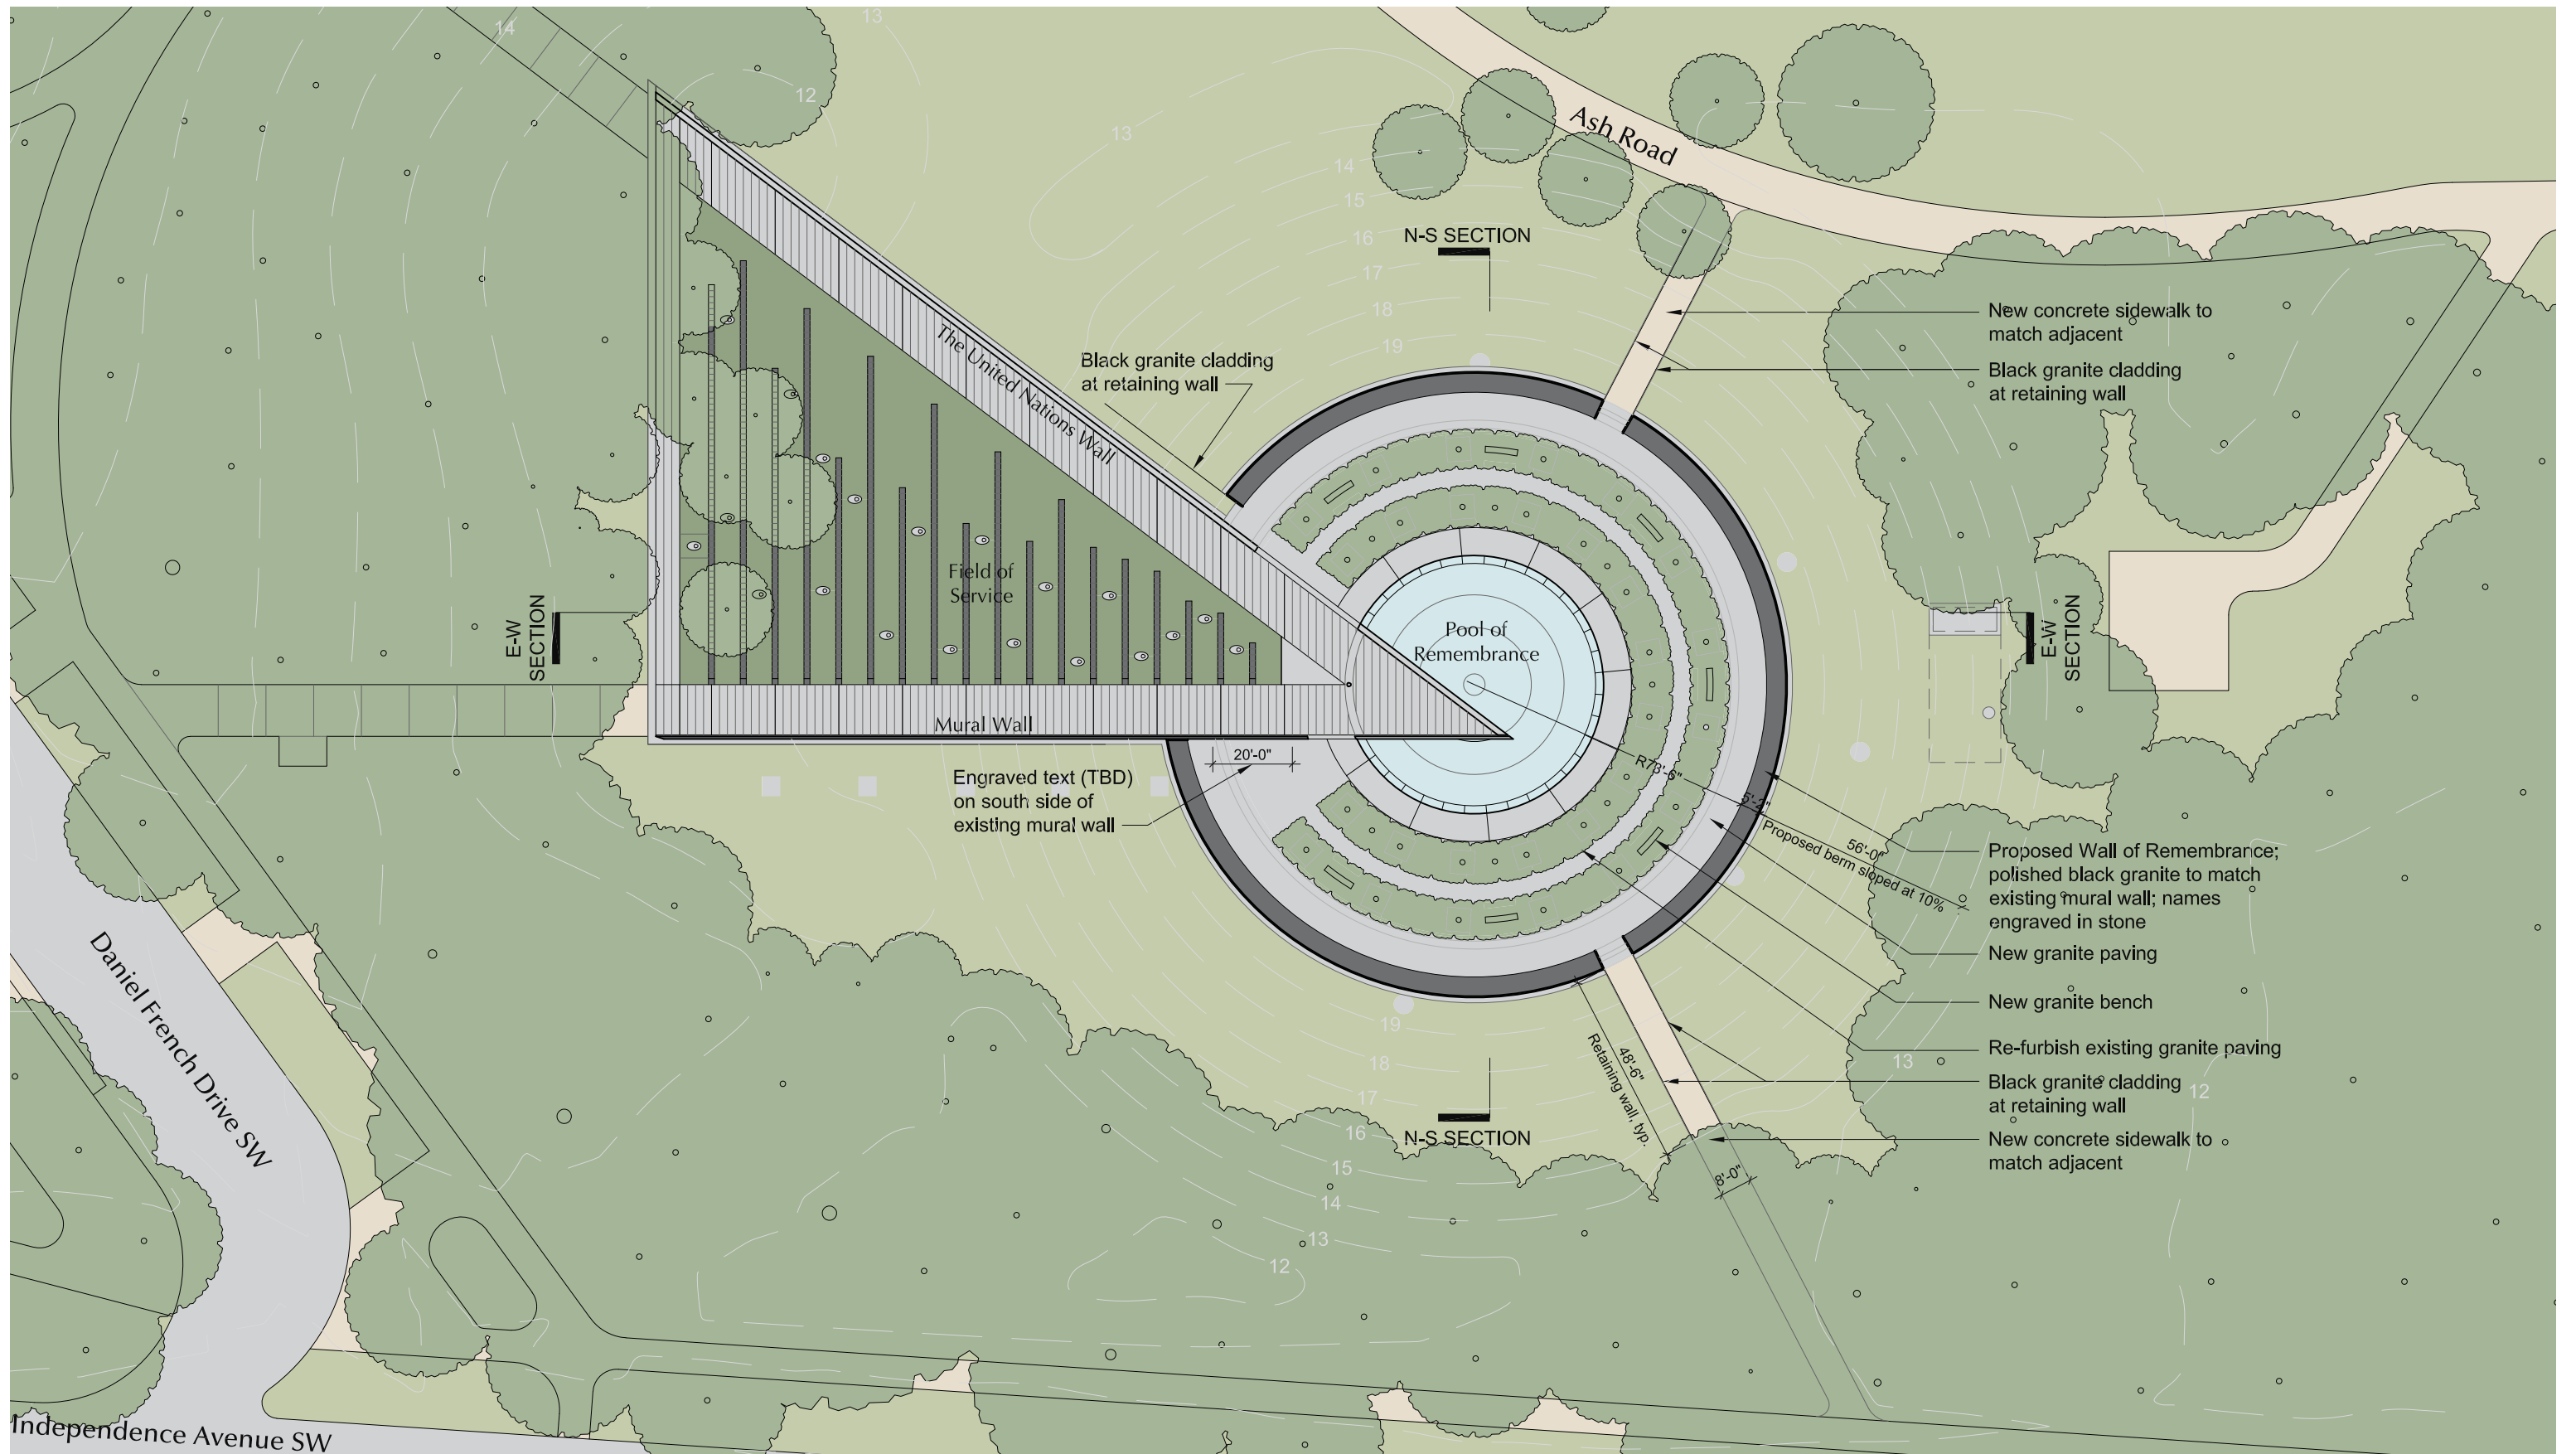

**All options assume that Korean Augmentation to the United States Army (KATUSA) names are written out in Hangul (not Roman alphabet letters) with the exception of options 3 and 7. All options assume that KATUSA names will be grouped separately and organized by service and rank, except for options 3 and 7. Options 3 and 7 assume that both US names and KATUSA names are written out in Roman alphabet letters and integrated with each other. Note that arrangement and grouping of names is conceptual only.

*** This analysis assumes that names are arranged in columns rather than running text.
